GENERAL SPECIFICATION

CARCASS
Board : MFC 16 mm
Origin : Europe
Quality : Class E1
Edging : 0.6 mm ABS edging with matching color
E1 is an European certification which indicates that the wood material used in the production process has a very low formaldehyde level. Hence, you can be assured of its safety towards your health.

BACK PANEL
Board : MFC 8 mm
Color : Carcass Finish
Origin : Europe
Quality : Class E1

DOOR PANEL OPTION
MFC
Board : MFC 18 mm
Origin : Europe
Quality : Class E1
Edging : 1 mm ABS edging with matching color
MFC Laser Edging
Board : MFC 18 mm
Origin : Europe
Quality : Class E1
Edging : 1 mm laser edging with matching color
Smooth transition between the surface to edge allowing the creation of a seamless covering panel.

Lacquer High Gloss
Board : MDF 19 mm
Origin : Europe
Quality : Class E1
Polyurethane lacquer high gloss finishing is acquired by conducting seven stages of lacquering process on all sides of a wood panel. It ensures excellent glossiness of the surface and leaves seamless joint lines between edges and surfaces.

Lacquer Matt
Board : MDF 19 mm
Origin : Europe
Quality : Class E1
Five layers of polyurethane lacquer coating is applied on a wood panel in order to produce matt finishing.

Veneer High Gloss
Board : MDF 21 mm
Origin : Europe
Quality : Class E1
In order to produce high quality veneer high gloss finishing, multiple coats of Polyurethane lacquer are applied on top of the wood veneer surface.

Veneer Open Pore
Board : MDF 21 mm
Origin : Europe
Quality : Class E1
Veneer open pore finishing reveals its wood texture so that it will look more natural. Meanwhile, application of transparent matt lacquer as the final coat smooths out the texture of the surface.
